Solvay Seminar Series
Spring 2021 Schedule

All seminars this semester will be held via Zoom.

**January 27, 11:15 AM**
“Multifunctional Hydrogels for Sustainable Energy and Environment”
**Guihua Yu**, University of Texas at Austin
Hosted by Feng Lin

**February 3, 11:15 AM**
“Catalytic Conversion of Polyethylene to Long-Chain Alkylaromatics”
**Susannah Scott**, University of California, Santa Barbara
Hosted by Greg Liu

**February 17, 11:15 AM**
“Supramolecular nanostructures to control material-cell interactions”
**Tanja Weil**, MPI Polymers, Germany
Hosted by Michael Schulz

**February 24, 11:15 AM**
“Protein-integrated Electronics: From Molecules to Machines”
**Leila Deravi**, Northeastern University
Hosted by John Matson

**March 24, 11:15 AM**
“Morphology and Dynamics of Polymers at Surfaces and Interfaces”
**Mesfin Tsige**, University of Akron
Hosted by Shengfeng Cheng

**March 31, 11:15 AM**
“Regioselectively sulfated polysaccharides”
**Emiliano Bedini**, University of Naples, Italy
Hosted by Kevin Edgar

**April 21, 11:15 AM**
“MOF-Polymer Hybrids - At the Interface of New Materials”
**Seth Cohen**, University of California, San Diego
Hosted by Amanda Morris
April 28, 11:15 AM
“Modeling Ionic Polymer Metal Composites: Where We Are and Where We Should Be”
Maurizio Porfiri, New York University
Hosted by Romesh Batra

The Solvay Seminar Series is proudly presented by the Macromolecules Innovation Institute (MII), and is made possible by support from Solvay Specialty Polymers.
